

### Initial Consultation with Dallas Interior Designer to Assess Design Needs

A detailed meeting will be held at your residential or commercial space to discuss in depth the needs and desires of your space. This process allows ideas to be verbalized and includes discussion of client’s vision, design style and color schemes preferred. At this time we will discuss your budget and timeline to complete the space. The Baker Design Group Interior Designer Team will also take complete measurements and photos of design space to assure furniture size and placement are maximized and functional for your family and company.

### Interior Design Team Utilizes Design Planning Programs and Creates Clients Design Plan

After the initial consultation meeting, your Interior Design Team will begin to design and source product for your specific space as discussed in the Initial Consultation. This process is expected to take a couple of weeks to compile as often times we use our CAD and space planning methods to maximize the functionality of the space. With over 22 years of being in the industry, Baker Design Group has been afforded a deep reservoir of selections and case good pricing. Baker Design Group is one of a few Interior Design companies in the Dallas area that represents leading custom furniture lines.

### Design Plans are Presented to Client

A detailed design plan is presented to the client that will often times include CAD drawings, Renderings, Textiles, Upholstery with the actual fabric samples, case goods, photos, paint and wall covering options, and flooring samples. Often times several options will be presented and discussed at the time of the meeting to make sure the needs and desires of the client are met.

### Design Plan Implementation Begins

Once the final design plan is agreed upon, your interior designer will begin to order and monitor your design plan to assure it’s deliveries work with-in the time line that has been agreed upon. Baker Design Group has a receiving warehouse manager that manages each client’s jobs and estimated arrival time. The warehouse manager will carefully inspect all items arriving to assure they are delivered complete as anticipated. Our goal is to make sure the project runs as smooth as possible and is a fun, exciting and a stress-free process for our client.

### Design Implementation

Depending on the scope of the project, the Baker Design Group team will install the full project within a one to two day time-frame. The design team strives to complete home or commercial space at one time so the client comes back to a beautifully completed space.

Our Interior Designers here at Baker Design Group will make the experience of designing your space more enjoyable than you ever thought possible. Sit back and watch your space be transformed.

We are excited to Change the Way You Live and Work!
